

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## VanEck Vectors™ Global Real Estate UCITS ETF (the "Fund")

a sub-fund of VanEck Vectors™ ETFs N.V. (the "Company")

ISIN: NL0009690239

This Fund is managed by VanEck Asset Management B.V., a subsidiary of Van Eck Associates Corporation.

## Objectives and Investment Policy

The VanEck Vectors™ Global Real Estate UCITS ETF is an exchange traded Fund (ETF) which seeks to follow the GPR Global 100 Index (gross total return index) as closely as possible.

The reference index measures the performance of 100 listed property companies and Real Estate Investment Trusts (REITs) worldwide.

The ETF is passively managed and invests in the underlying (physical) securities that make up the index and does not lend the underlying securities out to third parties.

The worldwide universe satisfies criteria relating to size, liquidity and free-float. Free-float market capitalization is used to weight the index.

Income from the Fund's investments is paid out as dividend. There is the possibility of dividend 4 times per year, but the height of the dividend to be paid out must also be considered. It may be the case that the income from the dividend is relatively low in a particular quarter, which means that from a cost perspective, it makes more sense to keep the income in the Fund until the next payment opportunity.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

- Fund's base currency: Euro
- Distribution policy: Income distributed

## Risk and Reward Profile

The risk and reward indicator is calculated using historical and simulated historical data. Historical data may not be a reliable indication for the future. Therefore, the risk classification may change over time.

Even if the Fund is in the lowest risk category, it does not mean it is risk free or that capital is guaranteed or protected.

This Fund is ranked at 5 because funds of this type have experienced high rises and falls in value in the past.

The following risks can be materially relevant but are not necessarily adequately captured by the synthetic risk indicator and may cause additional loss:

- Exchange rate risk: the value of an investment can be affected by exchange rate fluctuations. The price of the euro can rise against

another currency in which an investment is denominated.

- The investment risk is concentrated on certain markets, sectors or currencies. This means that the fund is sensitive to local economic, market-related, political or regulatory events.
- Investments in property securities can be affected by the general performance of share markets and the property sector. Changes in the interest rates in particular can have an impact on the value of the property in which a property company invests.
- The value of shares and share-related securities can be influenced by daily fluctuations on the share markets. The other factors that can have an influence include politics and economic news, company results and important events at companies.
- Liquidity risk: lower liquidity means there are not enough buyers or sellers to allow the Fund to easily trade the investments.

For more information on risks, please see the "Risk Factors" section of the Fund's prospectus, available on [www.vaneck.com](http://www.vaneck.com).

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	None*
Exit charge	None*

These are the maximum charges that could be taken from your money before it is invested or before we pay out the sale proceeds of your investment.

### Charges taken from the Fund over a year

Ongoing charges	0.25%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

\*Not applicable to investors on the secondary market. Investors who buy or sell shares via a market pay the costs charged by their financial intermediaries. Information on these charges can be obtained from the markets where the shares are listed and traded or from the financial intermediaries.

You can find more information on the charges in the cost section of the Fund's prospectus and/or supplement. This is available at [www.vaneck.com](http://www.vaneck.com).

The ongoing charges figure is based on expenses for the 12-month period ending 31 December 2019. This figure may vary from year to year. It excludes portfolio transaction costs.

## Past Performance

\* Until 17 January 2017, the performance was achieved with a different investment policy.

Any indication of past performance is not a reliable indicator of future performance.

The chart shows the Fund's annual performance in EUR for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched on 14 April 2011.

Performance is shown after deduction of ongoing charges.

The Fund uses a gross return index. The performance includes income distributions gross of Dutch withholding tax because Dutch investors can reclaim the 15% Dutch withholding tax levied. Different investor types and investors from other jurisdictions may not be able to achieve the same level of performance due to their tax status and local tax rules.
